

Looking for a DTG printer from a truly global brand?

Speak to DTG Solutions about their Epson packages

The ground-breaking SC-F2000 direct to garment printer is the only DTG printer that is designed, manufactured and supported by one global company – Epson.

Reliability, quality, speed and ease of maintenance are key factors when choosing a DTG printer and the SC-F2000 has all of these qualities. The white ink version allows printing onto black garments in conjunction with Epson's pre-treatment solution, ensuring first-class results every time, using the combined Epson technology.

Hot on the heels of their successful DTG Select 2014 event, DTG Solutions are delighted to continue their sizzling summer offers centered around the Epson SC-F2000 direct to garment printer.

DTG Solutions have a range of entry, mid and high level packages available to view at their website and for a limited time can offer them on an interest-free basis, subject to status.

The European Digital Press Association (EDP) named the Epson SureColor SC-F2000 "Best Direct Garment Textile Printer" at Fespa Digital 2014

For more information or to arrange a demonstration, please contact Dave Harrison on 020 8460 3690, email: sales@dtgsolutions.co.uk or visit the website.

Rowlinson launch new Woodbank hooded sweatshirt

The long awaited hooded sweatshirt from Rowlinson Knitwear is now available to order. Comprising 65% polyester and 35% cotton fabric, it weighs in at a heavy 280gsm which is much heavier than many on the market and is a hard wearing fabric brushed for extra warmth.

The fabric is dyed to lock in the colour which means that it will hold onto it wash after wash. Easy care is built in and the garment can be washed at 40C with a cool tumble and cool iron if required.

With a classic raglan sleeve for ease of movement and elasticated cuffs and rib hem, the garment is reinforced with top stitched seams for extra durability. A front pouch completes the story.

The garment will be available from stock and initially, will be available in black and navy. There are plans to introduce further colours later. Customers can take it plain direct from stock on a 24 hour delivery basis.

BE IN HARMONY WITH NATURE

PROMODORO FASHION ORGANIC-T

T-shirt, single jersey, neutral size label laterally in the neck, fashionable fit, 100 % certified (organic) cotton, 180 g/m², Men: XS-3XL, Women: XS-XXL.

Increase your sales with our advertising banners!

Promodoro offers you four different banner formats which you can integrate into your own website. All you need from us is the iFrame code for the desired banner. The banners just advertise our products and don't have any links.

Just click on the desired banner on our Website www.promodoro.co.uk to see the iFrame code and the animation.

How does it work?

Our webmaster will take the iFrame code from your desired banner and put it into your website. This is a very easy step.

Every month, the advertising will change itself automatically. You don't have to do anything else. The iFrame code also never changes.

There's no work involved for you, but you will always have the easiest way to present the up-to-date Promodoro ads.

The ad is not clickable and has no links to the Promodoro website. No prices or promotions will be offered in this ad.
