

Few easy steps for Do your own colour by Promodoro

Printwear & Promotion > Newsletter Items > Few easy steps for Do your own colour by Promodoro

You might know of a situation when a customer is asking you for a special colour which you cannot offer, due to the fact that the colour is not included in your product range. Custom made production is generally a long and complex process. To satisfy your customers in a very easy and quick way, we have launched DO YOUR OWN COLOUR. In just 6 simple steps you can do your own colour.

1. Choose a Style

26 eligible styles for women, men and kids, divided in 3 product groups: t-shirts, polo shirts and sweatshirts. We offer 12 T-shirts, 7 polo shirts and 7 sweatshirt styles.

All products come with promodoro neutral label this is another advantage and makes the product even more individual. All products can be washed at 40C°.

2. Choose your Colour

Choose your colour from a fabric swatch, Pantone TPX or C.

3. Place your Order

Within the 3 product groups (t-shirts, polos, sweatshirts) the minimum quantity varies eg for a t-shirt the min. quantity is 3.000 pieces per colour and at least 200 pieces per size/colour. To calculate the price just add 10% onto the general agreed price with us. As a last step prepare your order and send it to us by email or by fax.

4. Approve your Lab Dips

Lab dips will be sent for your approval within 14 days

5. Production Ready in 45 days FOB

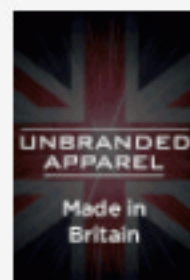

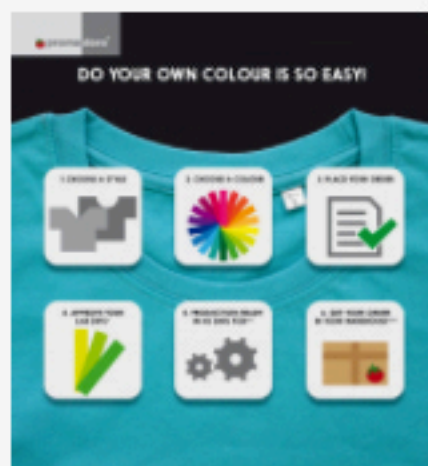

You can have the goods by sea, the shipping is free, or you have the possibility to get the goods urgently by air, in this case the shipping costs will be charged and vary depending on the product you have ordered.

6. Get your Order in your Warehouse

According to which shipping method you have chosen the order will be at your place in 2 weeks by air or in 6 weeks by sea (based on FOB date)

All information about Do Your Own Colour can also be found on our website
